Headset Compatibility: Female and Male XLR four and five pin versions available:
BlueSet-F4, BlueSet-F5, BlueSet-M4, BlueSet-M5.
 Each Sold Separately.

Communications Unleashed.

These headset interfaces plug directly into most Party-Line (PL) belt packs, replacing the wired headset. A 3.5 mm stereo headset jack contains a mic level output signal suitable for recording, with the beltpack headphone signal on the left channel, and the Bluetooth return signal on the right. A switch selects between connection to a 3rd party Bluetooth headset or a cell phone.

Headset Connect: Leave your belt pack on the desk as you walk around the room. Some Bluetooth headsets allow you to switch between two phones, or in this case, switch between your intercom and your cell phone.

Phone Connect: Pair BlueSet to your cell phone to grant remote access to the Party-Line for a distant member. The belt pack Mic/Talk button controls audio from the cell phone into the intercom system.

SPECIFICATIONS

Output	
1/8" (3.5mm) Stereo:	1000 ohms / 15 mv RMS; -34 dBu nom.
Battery:	Internal Lithium-Ion Polymer Rechargeable
