New Product Press Release

RemoteAmp Blue - Wireless Headphone Amplifier

JK Audio combines Bluetooth Wireless Technology with professional audio electronics in a rugged new belt pack design.

RemoteAmp Blue allows IFB monitoring through a cell phone equipped with Bluetooth Wireless Technology. This is a listen-only connection designed for voice IFB or full bandwidth stereo music listening.

RemoteAmp Blue pairs to your cell phone like any Bluetooth wireless headset. The XLR and 3.5 mm line input jacks and separate volume controls allow wired operation in parallel with the Bluetooth connection. The XLR line level input accepts either a balanced mono signal, or a party line intercom feed (listen-only). The ½ watt, ¼" stereo headphone jack will cut through any crowd noise. Connect an IFB earpiece to the 3.5 mm earpiece jack for mono operation.

RemoteAmp Blue also pairs to Bluetooth equipped sound cards and music players in full bandwidth A2DP stereo mode.

Features:

- Bluetooth Wireless Technology
- XLR Line Level Input
- 3.5 mm Stereo Line level input
- 3.5 mm Mono Earpiece Jack
- ¼" Stereo Headphone Jack
- Works with party line intercoms
- >10 Hours on one 9 Volt Battery
- Size: 4.7" x 3.75" x 1.65" (12 x 9.5 x 4.2 cm)
- Weight: 8 ounces
