## BlueDriver-M3™

**Bluetooth Device to Mic Input.** Pair to your Bluetooth equipped cell phone or headset to get audio straight from your Bluetooth device into your Mic input. The 3.5 mm send jack will accept a signal from the headphone output of the mixer for transmission back to the cell phone or headset.

### Headset Mode vs. Phone Mode

A switch selects between connection to a 3rd party Bluetooth headset, or a cell phone.

### Headset Connect:

Pair BlueDriver-M3 to your 3rd party Bluetooth headset. Some Bluetooth headsets allow you to switch between your audio device and a cell phone.

### Phone Connect:

Pair BlueDriver-M3 to your cell phone to call into the station or bring in caller audio.

BlueDriver-F3 and Daptor Three shown for comparison.

**D3** =Daptor Three   **F3** = BlueDriver-F3   **M3** = BlueDriver-M3
