- » DTMF Keypad
- » Keypad Disable Switch
- » Talk/Dial Button
- » Hang-up Button
- » Ring/Call LED
- » Passive Design (No Battery or AC Required)

### Remote Control of your Hybrid.

Guest Module 1 gives you remote access to the onhook / off-hook and dial features of JK Audio digital hybrids such as the innkeeper 1rx, innkeeper LTD and Broadcast Host.

This little time-saver gives you call control you simply can't get with an auxiliary telephone and a couple of switches. An 8 pin RJ45 modular cable provides remote power so there is no need for batteries or an external power pack. The Call button will flicker when a call comes in. Press this button to answer or place a call. The button will stay lit when a call is present. When you dial on-air, the tones go out on the line, and do not come back mixed with the dial tone or caller signal.
